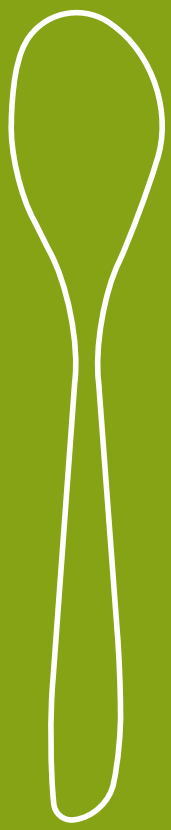
STUDIO**WILLIAM**®

BESPOKE CUTLERY

As well as our core stocked ranges we also have many bespoke options available. This presentation shows some of our capabilities, please speak to a member of our sales team for more information.



ABOUT STUDIO WILLIAM

We are a design-focused English cutlery company, we are globally synonymous with innovation and high quality, Studio William is led by William Welch, an award winning Industial Designer.
We are geeks and care about the smallest detail. We apply design as a process across the whole business. Our head office and warehouse is in Stratford-Upon-Avon, with additional warehouses in Hong Kong and New York.

VINTAGE PVD

We can also apply a vintage finish and PVD to any mirrored range, again as this would involve a second process, this comes at an additional cost.

Mulberry Champagne

Mulberry Copper

SPLIT PVD

The PVD coating can also be applied to part of the cutlery, below are just some ideas, this technique works best on ranges where the knife has a bolster like Larch and Mulberry.

STUDIO**WILLIAM**
PRECIOUS METALS

ROYAL OAK GOLDPLATE

Royal Oak Gold is the epitome of elegance. Hidden beneath the handles is a reference to the historical “King’s Pattern”. This detail is plated with 24 carat gold. The cutlery can be placed on the table as normal, or have a few pieces (or all) turned over in the ‘continental style’ to show a subtle opulence.

Goldplate

LARCH SILVERPLATE

Larch cutlery has historical influences but it's flowing form gives this pattern a modern flavour. Made using a slightly heavier gauge of the finest quality 18/10 Stainless Steel for the forks and spoons than our normal Larch cutlery (available in mirror finish), the cutlery is finished in a beautiful 25 micron electro plated Nickel Silverplate for the best possible longevity.

Silverplate

MULBERRY SILVERPLATE

The Mulberry tree is generally a short-lived tree with a lifespan similar to that of humans, however there are some known to be over 250 years old. Made using a slightly heavier gauge of the finest quality 18/10 Stainless Steel for the forks and spoons than our normal Mulberry cutlery (available in mirror finish), the cutlery is finished in a beautiful 25 micron electro plated Nickel Silverplate for the best possible longevity.

Silverplate

LASER ETCH MARKING ON PVD

This option allows you to further customise your cutlery, we can design a pattern or logo for you in line with the design of the dining outlet or we can create a design with your brand/logo. Kindly note the artwork and sample approval time would add on to the 12 week lead time with this option.

BESPOKE CHOPSTICKS

Our Toona chopsticks can be made in a pantone colour of your choice. The stainless steel sleeve can be left in stainless steel silver or can be made in PVD gold, copper or black. We can custom laser mark with your logo. The plastic end cap can be in a matching or contrasting colour.

GET IN TOUCH

CUSTOMER SERVICE
We offer unparalleled Customer Service, and will work tirelessly to fulfil your cutlery requirements. The options for customising your cutlery are endless so please discuss your ideas with our sales team so that we can create something that fits your requirements.

WARRANTY
We offer a 5 year Food Service Manufacturer's Warranty on all of our Stainless Steel products.
For PVD there is no scratch warranty, as customers have the ability to heavily abuse the cutlery if they chose not to look after it. The warranty we offer on PVD is that of flaking or peeling. We offer our normal 5 year Food Service Manufacturer's Warranty on all of our Stainless Steel products (underneath the PVD) for 5 years.
Expected life expectancy of PVD is 1-4years of use in a commercial kitchen. We have customers using it for more than 4 years, it all depends on how it is used and cared for.
