

WHO WE ARE

Charingworth comes from the same stable as the iconic Studio William cutlery. Designed in the Cotswolds by industrial designer William Welch as an everyday dining collection, Charingworth's modern take on traditional features complements all settings and cuisines with well-balanced, timeless design.

Manufactured to exacting standards, this cutlery will stand the test of time. Our craftsmanship produces soft edged handles which are lovely to hold. The highly polished stainless steel is procured only from the most consistent and technically advanced steel mills, ensuring your cutlery is corrosion resistant and will stand the test of time.

We believe good flatware enriches the dining experience and helps bring the table alive. Our design process is meticulously detailed, ensuring every pattern looks and feels good in the hand and mouth.

SANTOL MIRROR

Mirror Finish & Heavy Weight

The Santol cutlery range features classic yet striking curved handles which carefully balance the need for beauty, functionality, and affordability. This range features the most additional pieces, and is a heavier gauged pattern, ideal for both all day dining and speciality dining.

FIDDLE VINTAGE SATIN

Vintage Satin Finish & Heavy Weight

Fiddle cutlery first made an appearance in England around the 1760s. We have taken this traditional design and modified it, bringing it into the 21st century. Our Fiddle range retains the finer details that capture the spirit of this much-loved pattern but with a modern twist. This range is perfect for making a statement on the dinner table.

PLANISH SATIN

Satin Finish & Heavy Weight

The Planish cutlery range is named after the process of hammering marks repeatedly over the handle's surfaces. The knives in the range feature a mirror blade with a satin handle, and all pieces have soft edges. Planish cutlery has a comfortable feel while still looking striking on the table.

BAGUETTE MIRROR

Mirror Finish & Heavy Weight

The Baguette cutlery range has a classic, timeless style and elegant form. It features soft, rounded edges, and a tapered ridge that runs along the full length of the handles. This cutlery range works with a classic styling bringing the table to life.

MOGANO SATIN

Satin Finish & Medium Weight

The Mogano cutlery range features a timeless form and a tear-drop shaped handle. The knives feature a contrasting mirror blade with a satin handle, while the spoons and forks have a slight flick. With soft edges, Mogano has a striking appearance yet feels comfortable and elegant in the hand.

LUNCH SPORK

Mirror Finish & Heavy Weight

The spork is a great all rounder offering a fork, knife and spoon all in one. Ideal for stand up dining, events and a sustainable option for 'food to go' concepts and casual dining. Swap out single use plastic and bamboo cutlery for something that will last a lifetime. The spork can be purchased as a stainless steel piece alone and also with a silicone head. Bespoke options available through our team.

OUR SUSTAINABLE COMMITMENT

Our mission is simple- to design and make beautiful and elegant cutlery made to last generations. This is only possible by using high quality solid 18/0 stainless steel and master tooling craftspeople who refine the nuances of each edge, curve and contour. We are proudly part of Ecovadis who provide a definitive benchmark for ethical and environmental standards across many industries. The commitment to fully sustainable packaging using natural materials goes across our whole business. In 2022, we made the change to plain card inner cartons, biodegradable poly bags and paper tape for all new factory orders.
