# SUSTAINABILITY STATEMENT

Our mission is simple- to design and make beautiful and elegant flatware made to last generations. That makes Studio William inherently sustainable as after our flatware has been cherished over generations it can easily be recycled. This is only possible by using high quality solid 18/10 stainless steel and master tooling craftspeople who refine the nuances of each edge, curve and contour. We are proudly part of Ecovadis who provide a definitive benchmark for ethical and environmental standards across many industries. The commitment to fully sustainable packaging using natural materials goes across our whole business. In 2022, we made the change to plain card inner cartons, biodegradable poly bags and paper tape for all new factory orders.
